

A group of people are in a room with a purple glow and a complex geometric structure of intersecting lines. Three people are sitting on a wooden bench in the foreground, looking towards a woman standing in the background. The text 'apply now!' is overlaid in a large, yellow, stylized font.

apply now!

apply now!

You are a student of architecture, urban space, interior design or close to these fields? You have spatial and conceptual skills? You have drawing skills in 3D or 2D and are familiar with building mock-ups? You are not afraid of carrying material around? or not afraid of harsh winter/ summer times and finestaub? or you have a special interest in social or political contexts? or a special cooking receipt?

If you identify yourself with our activities and if you can imagine spending at least 6 month working with us, then apply with your portfolio to our architect-in-residence-program. The summer period starts at the 1st of February - the winter period starts at the 1st of September.

we do

we *are* / **we** *do*

On the background of an architecture and craft education we are an artistic orientated architecture studio. The work usually commutes and combines architecture or urban planing, design and art or culture. We love the direct connection between planing and building. Understanding Material with its physical and mental properties is one of the main force that drives us on the way to a concept. Besides the product we understand designing as a process, either in planing as well as in building.

Our everyday life takes place in a self-build office as a result of an ongoing conceptual transformation. Mostly we are working with public institutions and cultural actors. Between practice and teaching on different schools. We are proud to be part of the wide field of architecture faculties in stuttgart, like the art academy, the university or the technical university and are far known besides the borders of Europe. Currently we are setting up a connection between Hamburg and Stuttgart.

we are located at...

we are located at

the umschichten academy is located on the campus of the Kunstverein Wagenhalle - a creative hub with around 80 artists.

A diverse context between painters, graphics, sculpturers, musicians, architects and scenographers.

It contains individual working ateliers as well as workshops for wood and metal. The gradient of usage varies from a huge concert hall to an very experimental music or exhibition program.

The Kunstverein area is two stops away from the central station and already won a prize for its selfmade bottom-up-strategy in urban planing. We are looking forward to move into the new hangar of the Kunstverein that was renovated during the last two years and is now established as a main core in the cultural landscape of Stuttgart.

capsule living lab

As an extension to our office we have a series of containers that are all self-build and part of an exploration of different concepts. The everyday laboratory is part of your lifetime on that occasion.

You will have the choice to be hosted in one of these containers on our campus. The containers are the size of a cabin or tiny house and only work in an ensemble with others. Therefore we have a sauna-container that already served conspirative sessions during theater pieces, a workshop container that already traveled to action planing workshops through Germany and on top we have a cuisine container. That one already served big festivals like 72hoururbanaction or hotel shabby-shabby in cooperation with raumlabor. The kitchen container is part of our space stock and can be used to experiment with food on the everyday lunch occasion.

apply with your motivation letter along with a CV and portfolio (5 MB max.) to post@umschichten.de
